APPENDIX C

BURGESS HILL MASTERPLAN SPD TABLE

	SPD DEVELOPMENT GUIDANCE	NEIGHBOURHOOD PLAN
1	The area of land west of the town centre, bounded by London Road, Queen Elizabeth Avenue, Civic Way and Norman Road, should be more intensively developed.	Parts of this guidance are now included within Policy TC3 The Brow Quarter
2	London Road should be considered as the new boundary for an expanded town centre in the longer term.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
3	The existing uses of the Police Station, Health Centre, Ambulance Station, Fire Station and St Wilfred's Infant and Primary School should be redeveloped with new facilities informed by the projected expansion of Burgess Hill.	Parts of this guidance are now included within Policy TC3 The Brow Quarter and Policy TC1 The Civic and Cultural Quarter.
4	The western edge of the existing retail core should be more intensively developed.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
5	The area of land to the north east of the town centre bounded by Church Walk, Cyprus Road and Crescent Road should be more intensively developed	Parts of this guidance are now included within Policy TC1 The Civic and Cultural Quarter.
6	The area of land around the station should be more intensively developed.	This is now superseded by Policy TC5 The Station Quarter.
7	Mark and celebrate the gateway to the town centre and Victoria Business Park at the intersection of London Road, Queen Elizabeth Avenue and Victoria Way	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
8	Promote Queen Elizabeth Avenue as a key connecting element between the Business Park and the town centre. It should be transformed into a boulevard, with wide footways, tree planting and new development.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD. Is referenced in the Town Wide Strategy.
9	Reconfigure the highway system within the town centre, involving the closure of Civic Way between The Brow and Station Road/ Queen Elizabeth Avenue, and its replacement as the distributor route to the west of the town centre by The Brow	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
10	Create a new station square on the west side of the station, in Wolstonbury Way, connected to a new station building at platform level.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
11	Improve bus routing to ensure easy and legible access to all key town centre facilities.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
12	Introduce improved pedestrian crossing facilities on key desire lines,	Parts of this guidance are now included within Policy TC6 General improvements within the Town Centre.
13	The public realm needs to be properly enclosed by continuous built form, with a common building line that provides active frontage and minimal blank walls to ensure good surveillance and security.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
14	The enhancement of public realm throughout the town centre to give smooth, flat and easily cleanable surfaces using appropriate quality materials.	Parts of this guidance are now included within Policy TC6 General improvements within the Town Centre.

15	Church Walk and Church Road public realm to be upgraded. The planting of street trees using appropriate species. The creation of a new town square.	Parts of this guidance are now included within Policy TC6 General improvements within the Town Centre and Policy TC4 The Retail Quarter.
16	A new civic/community building should face onto this new square and be ideally located on the alignment of Queen Elizabeth.	Not specifically included in the Neighbourhood Plan and probably will not be pursued as an option - therefore no longer relevant in the SPD.
17	The existing green space at Queens Crescent to be retained and enhanced.	Parts of this guidance are now included within Policy TC5 The Station Quarter.
18	The creation of a new station square to create a high quality welcome and arrival space for the town.	Parts of this guidance are now included within Policy TC5 The Station Quarter.
19	New residential development is encouraged in the town centre.	This guidance is relevant to a number of policies - in particular TC1 The Civic and Cultural Quarter.
20	The retention and expansion of commercial and industrial uses will be encouraged.	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
21	The area of land between the business park and the town centre should be redeveloped as residential led mixed-use to include space for other employment and ancillary uses	Not specifically included in the Neighbourhood Plan and therefore remains relevant in the SPD.
22	A more family orientated leisure offer is required that consists of a broader range of restaurants, cafes and cultural/recreational facilities	Parts of this guidance are now included within Policy TC2 The Leisure and Entertainment Quarter.
23	A large multi-screen cinema is sought for a town centre location.	Parts of this guidance are now included within Policy TC2 The Leisure and Entertainment Quarter.
24	A new Civic building is sought which provides accommodation for one stop facilities for public services, tourist information, council chambers, meeting rooms and office accommodation	This guidance is relevant to a number of policies - in particular TC1 The Civic and Cultural Quarter.
25	The new library should be 1100sq m with 700sq m on the ground floor.	This guidance is relevant to a number of policies - in particular TC1 The Civic and Cultural Quarter.
26	New shop units around the new town square should be medium to large floor plates stores. The retention of independent shops.	Not specifically included in the Neighbourhood Plan and emphasis is on retaining and attracting small independent shops in Policy TC4 The Retail Quarter. Larger shops may come forward in the Leisure and Entertainment Quarter (Policy TC2).
27	Any redevelopment of the town centre will require the reprovision of existing parking and additional parking.	Parts of this guidance are now included within Policy TC6 General improvements within the Town Centre.
28	New development should seek to provide high quality, contemporary design.	Parts of this guidance are now included within Policy TC6 General improvements within the Town Centre.
29	The potential reopening of Church Walk to some traffic should be considered to encourage more activity and vitality in this area.	Not specifically included in the Neighbourhood Plan and probably will not be pursued as an option - therefore no longer relevant in the SPD.

APPENDIX D

Residential Parking Standards

Small Scale Development

Smaller developments of 20 dwellings or less should have parking standards as detailed in the tables below for all of Burgess Hill excluding the Town Centre (Table 1) and the Town Centre (Table 2). The standards apply an allocated space to each development type and size, and identify the additional unallocated spaces which should be provided on site to facilitate additional car ownership and visitor parking. In the event that parking spaces are not allocated to dwellings the number of spaces would normally reduce, to take account of non-car owning households.

Please note these standards are intended to be the minimal criteria.

Table 1: Parking Standards (excluding Town Centre) for small developments

Housing type	Bedrooms	Non- allocated provision*	Allocated Provision	
			Designated Spaces	Non-Designated Spaces*
Owned Houses	1 bed	1.2	1	1 space per dwelling
	2 bed	1.5		
	3 bed	1.7	2	1 space per 2 dwellings

Large Scale Residential Development

In some areas within Burgess Hill, particularly those in the Town Centre it may be appropriate to constrain levels of parking further, although in these areas it would be realistic to promote lower levels of car ownership and therefore the following must be provided: Travel Plan measures, high level of public transport accessibility, and comprehensive parking controls.

For larger developments over 20 dwellings, parking demand standards should be calculated using the tables below: Please note these standards are intended to be the minimal criteria.

APPENDIX F

Glossary

Acronym	Full Title	Explanation
	Asset of Community Value	Communities can place buildings or land on an asset of community value held by the local authority. This allows communities and parish councils to nominate buildings or land for listing as an asset of community value. An asset can be listed if its principal use (so it's the use of the building not the architectural value) furthers (or has recently furthered) their community's social well-being or social interests (which include cultural, sporting or recreational interests) and is likely to do so in the future. When a listed asset comes to be sold, a moratorium on the sale (of up to six months) may be invoked, providing local community groups with a better chance to raise finance, develop a business and to make a bid to buy the asset on the open market.
BHTC	Burgess Hill Town Council	Burgess Hill Town Council is the parish authority for Burgess Hill. Neighbourhood planning can be taken forward by two types of body - town and parish councils or 'neighbourhood forums'. Burgess Hill Town Council is the authority taking forward the Burgess Hill Neighbourhood Plan.
	Burgess Hill Town Wide Strategy	Prepared by Burgess Hill Town Council which sets out the general principles, visions, and objectives for Burgess Hill over the plan period and addresses the need for strategic development in the town.
	Community and Local Community	A generic term to include all individuals (including the general public) and organisations external to the Town, District and County Councils.
CIL	Community Infrastructure Levy	The Community Infrastructure Levy is a new levy that local authorities can choose to charge on new developments in their area. The money can be used to support development by funding infrastructure that the council, local community and neighbourhoods want.
	Community Right to Build	<p>The Community Right to Build allows local communities to undertake small-scale, site-specific, community-led developments. The new powers give communities the freedom to build new homes, shops, businesses or facilities where they want them, without going through the normal planning application process.</p> <p>To get the go-ahead, the proposals must:</p> <ul style="list-style-type: none"> • have the agreement of more than 50% of local people that vote through a community referendum • meet some minimum requirements.
	Development Plan	A plan comprising the Development Plan Documents contained within the Local Development Framework. This includes neighbourhood plans and district/local plans.
