The Town Clerk
Burgess Hill Town Council
96 Church Walk
Burgess Hill
RH15 9AS

Dear Sir/Madam,

Re: Preliminary Inquiry – Burgess Hill Water Tower, Keymer Road, Burgess Hill, West Sussex, RH15 0BQ. NGR: E: 531682, N: 117542

Proposed 600mm dish to be installed on existing antenna pole to be fixed above existing antenna (at sector 3 240deg). Mount to top of pole as per existing EE 600 dish on adjacent pole New Dish cable to be installed in existing cable management, following the route of the existing dish cable to new dish radio to be housed in existing TX rack in cabin.

WHP Telecoms Ltd, 1a Station Court, Station Road, Guiseley, Leeds, LS20 8EY

EE and Hutchison are in the process of upgrading a number of sites in the UK predominantly to make them 4G/5G. This upgrade process will primarily involve swapping existing equipment and replacing this with similar new apparatus.

Upgrading telecommunications equipment would normally be Permitted Development. However, Planning Permission or Prior Approval is being sought for a number of upgrades in the UK either because the equipment is located within a Conservation Areas on a Listed Building or the type / scope of the equipment does not benefit from Permitted Development rights.

The purpose of this letter is to inform you prior to our submission that we are looking to imminently submit a formal application to the Council to upgrade the above installation. The upgrade will not materially affect the building / installation or the surrounding area.

If you have any comments prior to this minor upgrade development submission we look forward to receiving these. We would be grateful for any comments you have on the site and/or agreement to a meeting.

Yours sincerely,

Julia Marshall
