

Update on 'It's Christmas' – Leader Update 12

One of the things that this Council has no control over is Mother Nature, who has deemed it necessary to send a storm (called Bert!) our way over this weekend. With heavy rain and strong winds up to 55mph forecast, our Community Team have been busy making alternative arrangements for the 'It's Christmas' event.

Gazebos, stages and strong winds do not mix, neither do performers and singers in costumes! The safety of our community and the events we hold is our top priority, thus the changes we have made are with that safety in mind.

Here are the changes:

Stalls – those that were outside will now be inside Cyprus Hall, open from 11am to 3pm. Entry is free.

Performances – Those performances that were due to take place on stage will now be held in the Market Place Shopping Centre.

All other activities will remain as advertised.

For more information, please see our Facebook and Twitter (X) pages or drop by the Help Point.

Despite the weather, we hope you will still turn out to enjoy the day.
